Members Update

Dear Brother/Sister,

Members will be aware of the Emergency Brigade Committee that took place on Monday 9th October and of all the serious issues raised and the genuine concerns of FBU members from all branches across the whole of Merseyside. FBU branch meetings are still an important way of dealing with these concerns and for receiving information from officials on how to raise and tackle these problems.

The Joint Secretaries are meeting on a daily basis to attempt to sort through the body of work generated from the Agreement in Principle and to keep within the timescales. All the issues raised by FBU officials and branches at the Brigade Committee on Monday are also highlighted at these daily meetings and will, as time allows, be worked through.

The amount of work involved coupled with the tight timescales does not allow for the Brigade officials to deal with all our members concerns immediately, however, there are a number of other FBU officials in Merseyside who can help and direct our members with their concerns and problems and are happy to do so.

Could all FBU officials ensure that all our members have an opportunity to view this circular.

Yours in Unity

Mark Dunne
Brigade Chair
